(Adding thereto a new Paragraph (9), which requires the development of private, unimproved lands before acquiring City-owned vacant land)

(Ordinance vetoed by the Mayor May 27, 1998)

The City Clerk stated the question before the Council is "Shall the Municipal Council override the Mayor's veto of "An Ordinance amending and supplementing Ordinance 6-S & F-t, December 8, 1986, entitled 'An Ordinance to amend and supplement Title Two, Administration, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented, by providing for the conditions of sale with respect to the sale of City-owned property', by adding thereto Paragraph (9) as a further condition of sale."

MAYOR
NEWARK, NEW JERSEY

Robert P. Marasco, City Clerk
920 Broad Street - Room 309

RE: AN ORDINANCE AMENDING AND SUPPLEMENTING ORDINANCE 6S&F-T 120886 ENTITLED "AN ORDINANCE TO AMEND AND SUPPLEMENT TITLE TWO, ADMINISTRATION OF THE REVISED ORDINANCES OF THE CITY OF NEWARK, NEW JERSEY, 1966 AS AMENDED AND SUPPLEMENTED BY PROVIDING FOR THE CONDITIONS OF SALE WITH RESPECT TO THE SALE OF CITY-OWNED PROPERTY," BY ADDING THERETO PARAGRAPH (9) AS A FURTHER CONDITION OF SALE.

June 17, 1998

Dear Mr. Marasco:

In accordance with the provisions of N.J.S.A. 40:69A-41, I am returning the above-referenced ordinance to you without my signature thereby exercising the veto provisions of this statute. The amendment to the above-referenced ordinance presents constitutional issues with respect to the property rights of individual property owners. Additionally, its application to private property owners creates unreasonable restrictions and creates a higher standard for that group. The statute which authorizes the municipal sale of property not needed for a public use specifically provides for restrictions and conditions to be on the property for sale, not privately owned properties. Therefore, it is my considered opinion that I am unable to sign the ordinance with these deficiencies.

Very truly yours,

SHARPE JAMES
Mayor

Section 6. Such permission is hereby given upon the further condition that in the use of the public right-of-way, MFN, its successors and assigns shall become subject to any applicable Ordinance or Resolution now or hereafter adopted by the City of Newark that may apply to the easement and fiber optic telecommunications network and MFN, its successors and assigns shall become liable for the payment of any fee hereafter imposed by the City by such Ordinance or Resolution.

Note: All banks on this report, except Penn Federal Savings, quote CD rates on a 360 day basis (% x actual days / 360). Penn Federal uses a 365 day basis (% x actual days / 365). To convert a 365 rate to a 360 day rate, subtract approx. .08% (.0008). For example a rate of 5.68% on a 365-day basis would closely approximate a rate of 5.60% on a 360 day basis.

Corp., Owner, to permit in a 3rd residential district, existing building to be used as an auto repair shop (mechanic only) which is not a permitted use; for premises at 41 Herbert Place.**

(Copy of transcript submitted to each Member of the Council)

(Ms. Cynthia Salter, Appellant)

(Board of Adjustment hearing held April 9, 1998)

(Transcripts filed October 6, 1998)

The Board of Adjustment at its meeting held April 9, 1998 approved the application by 6 Ayes.

An appeal in this matter was filed in the Office of the City Clerk on July 28, 1998, by Ms. Cynthia Salter.

The transcript in connection with this matter was received October 6, 1998, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On October 7, 1998, the City Clerk notified the applicant, the owner, the applicant's attorney, the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting of October 21, 1998, at 7:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark, New Jersey.

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Jose Rodriguez, Applicant and 11-41 Herbert Place L.L. Corp., Owner, to permit in a 3rd residential district, existing building to be used as an auto repair shop (mechanic only) which is not a permitted use; for premises at 41 Herbert Place. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MS. CYNTHIA SALTER, 22 HINSDALE PLACE, NEWARK, NEW JERSEY, addressed the Members of the Municipal Council stating that she is opposed to the location of the garage due to the noise especially at night and her property being used as transportation back and forth.

BOARD OF ADJUSTMENT APPEAL

- 5-A-1. In the matter of application of Jose Rodriguez', Applicant, (11-41 Herbert Place L.L. Corp., Owner), to permit in a 3rd residential district, existing building to be used as an auto repair shop (mechanic only) which is not a permitted use, for premises at 41 Herbert Place. (North Ward)**

(Copy of transcript submitted to each Member of the Council)

(Ms. Cynthia Salter, Appellant)

(Board of Adjustment hearing held April 9, 1998)

(Transcript filed October 6, 1998)

November 4, 1998

The Board of Adjustment at its meeting held April 9, 1998 approved the application by 6 Ayes.

An appeal in this matter was filed in the Office of the City Clerk on July 28, 1998, by Ms. Cynthia Salter.

The transcript in connection with this matter was received October 6, 1998, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On October 7, 1998, the City Clerk notified the applicant, the owner, the applicant's attorney, the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting of October 21, 1998, at 7:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark, New Jersey.

A meeting was held October 21, 1998, and the Municipal Council deferred action on the application.

On October 23, 1998, the City Clerk notified the applicant, the applicant's Attorney, the appellants and objectors that the appeal was heard on October 21, 1998 but was not disposed of and this matter was scheduled to be considered at the November 4, 1998 regular meeting of the Municipal Council at 1:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Bradley stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Jose Rodriguez, Applicant and 11-41 Herbert Place L.L. Corp., Owner, to permit in a 3rd residential district, existing building to be used as an auto repair shop (mechanic only) which is not a permitted use; for premises at 41 Herbert Place. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MS. CYNTHIA SALTER, 22 HINSDALE PLACE, NEWARK, NEW JERSEY, addressed the Municipal Council stating she was against the granting of this variance, since she was of the opinion that the property would be used for the storage of old cars and materials. She noted the property adjoins her property.

Council Member Carrino stated the variance had nothing to do with the Hinsdale Place property. He requested that Ms. Salter call his office immediately if there was any activity on the Hinsdale Place lot.

A motion to modify the decision of the Board of Adjustment contingent upon owner's compliance with the following conditions: 1. That the property owner may not store cars on the Hinsdale Place side of said property; 2. The owner may not open the business on Sundays and 3. The business may not remain open beyond 5 p.m. daily was made by Council Member Carrino, seconded by Council Member Walker and declared adopted by President Bradley by the following votes:

Yes: Council Members Booker, Bridgeforth, Carrino, Chaneyfield Jenkins, Quintana, Tucker, Walker, President Bradley.

Absent: Council Member Amador.

Ordinance amending and supplementing Title 10, Finance and Taxation, Chapter 16, Tax Exemption of Qualified Real Property for Environmental Opportunity Zones, of the Revised Ordinances of the City of Newark, New Jersey, as amended and supplemented (by allowing the Governing Body the option of extending the tax exemption from ten (10) years up to fifteen (15) years. Allows developers to recover remediation costs on contaminated properties).

Section 1. Title 10, Finance and Taxation, Chapter 16, Tax Exemption of Qualified Real Property for Environmental Opportunity Zones of the Revised Ordinances of the City of Newark, New Jersey, 1966, be and is hereby amended to read as follows:

10:16-2 - Definitions - where used in this Ordinance the following terms shall be defined as indicated:

"Limited restricted use remedial action" means any remedial action that requires the continued use of institutional controls but does not require the use of an engineering control;

"Remediation" means all necessary action to investigate and clean up or respond to any known, suspected, or threatened discharge of contaminants, including, as necessary, the preliminary assessment, site investigation, remedial investigation, and remedial action;

"Remediation cost" means cost associated with the implementation of a remediation, including all direct and indirect legal, administrative and capital costs, engineering costs, and annual operation, maintenance, and monitoring cost;

"Unrestricted use remedial action" means any remedial action that does not require the continued use of engineering or institutional controls in order to meet the established health risk or environmental standards.

"Taxes otherwise due" means the amount determined by using the assessed valuation of the environmental opportunity zone at the time of the approval by the assessor of the exemption, regardless of any improvement made to the environmental opportunity zone thereafter and as if the

designation of the environmental opportunity zone had not occurred.

10:16-4 - Authorization for tax exemption

Each approved exemption shall be evidenced by a financial agreement between the municipality and the applicant approved by Ordinance of the governing body authorizing an agreement for tax exemption for a particular environmental opportunity zone for a period of ten (10) years, except that a tax exemption may be extended up to fifteen (15) years, at the municipality's option, if the qualified real property is to be remediated with a limited restricted use remedial action or an unrestricted use remedial action. The property tax exemption shall end if the difference between the real property taxes otherwise due and payments made in lieu of those taxes equals the total remediation cost for the qualified real property.

10:16-6 - Payment in lieu

10. In the tenth and all subsequent tax years following execution of a memorandum of agreement or administrative consent order, the exemption shall expire and the full amount of the assessed real property taxes, taking into account the value of the real property in its remediated state, shall be due.

Where a property tax exemption has been extended because of the proposed implementation of a limited restricted use remedial action or unrestricted use remedial action, the municipality may provide for a different schedule for the payment in lieu of real property taxes which payments may not exceed the length of the property tax exemption.

The payments required pursuant to this Ordinance shall be made in quarterly installments according to the same schedule as real property taxes are due and payable. Failure to make these payments shall result in the termination of the exemption. In addition to the remedy set forth herein, the requirements imposed pursuant to Section 7 of P.L. 1995, c.413 (C. 54:4-3.156) shall be enforced in the same manner as is provided for real property taxes pursuant to Title 54 of the Revised Statutes.

10:16-12 - Ineligibility

Any tax exemption authorized and granted under the provisions of P.L. 1995, c. 413 (C. 54:4-3.150 to -158), as amended and supplemented, shall not be granted or applied in conjunction with any other exemption or abatement authorized under other state law or statute.

December 16, 1998

Section 2. This ordinance shall supersede and repeal any provision of Ordinance No. 6S&FF adopted on July 2, 1997, which is inconsistent with the provisions herein.

Section 3. Any ordinances or parts thereof which are inconsistent herewith are hereby repealed.

Section 4. This ordinance shall take effect upon final passage and publication in accordance with the laws of the State of New Jersey.

All trunk and distribution cable shall be inspected and sample tested to verify compliance with manufacturer's specifications for frequency response and structural loss. All trunk and distribution amplifiers shall be bench-tested. No component will be used in the Cable System that fails to meet manufacturer's specifications. The manufacturer's specifications should meet or exceed industry standards.

5.(e)(2) To the extent permitted by State law, the Grantee shall perform acceptance tests on each construction area segment prior to Subscriber connection. The tests must demonstrate that the Cable System components are operating as expected. The Grantee shall have the obligation, without further notice from City, to take corrective action if any segment is not operating as expected.

5.(f) System Design: Proof of Performance Tests. To the extent permitted by State law, the Grantee shall perform proof of performance tests designed to demonstrate compliance with this

5.(h) I-Net

5.(h)(1) Fiber Construction. In conjunction with and simultaneous to the subscriber network rebuild specified in paragraph 5.(a), Grantee will install 6 dark fibers connecting a central location to each of 55 locations as specified by the City. The fibers from each site will connect to the central location, unless otherwise agreed in writing by the City and the Grantee. Two of the fibers at each site will be dedicated for the City's exclusive use. Grantee may utilize the remaining 4 fibers running to each site, until the city provides reasonable written notice that it wishes to utilize the additional fibers at any particular location.

5.(h)(2) Design Review Process

At least ninety (90) days prior to the date of initial construction of the Rebuild, the Grantee shall deliver to the City a detailed design plan for the Institutional Network fiber system, which shall include at least the following elements:

- (b) Technical description of I-net related equipment, if any, at headend, hubs, and nodes;
- (c) Technical description of fiber splicing method.

The design shall be shown on maps of industry standard scale and will include specifications for the I-net fibers and related outside plant facilities. The City may review the plan and may within

forty-five (45) days of the date the plan is made available for City review, submit comments to the Grantee. Within fifteen (15) days of receipt of the comments, the Grantee shall submit a revised plan to the City, either incorporating the comments or explaining why the comments were not included.

(i) The Grantee shall notify the City in writing fifteen (15) days in advance of completion of construction of each site. The notice shall include the date the Grantee is prepared to conduct an OTDR test to demonstrate that the fiber connectivity meets manufacturer's specifications. The test must be conducted in the presence of the City's designated observer.

(ii) The City shall also have the option of conducting a physical inspection of the construction and connections to the site. This inspection shall be conducted no later than the date of the test in paragraph (i).

(iii) If the connections to the site pass the performance test required by paragraph (i) and the City does not inform the Grantee in writing within 10 days that the physical

inspection discloses errors in construction or installation or fails to conform with the approved design, the site shall be deemed accepted.

(iv) The Institutional Network shall be deemed accepted when the last site identified by the City meets the foregoing requirements.

(c) All facilities constructed by the Grantee pursuant to this Section shall be maintained in accordance with normal industry standards.

(d) Upon request, and after acceptance of the Institutional Network pursuant to this Section, the Grantee shall construct any additional Institutional Network facilities for the City. The City shall reimburse the Grantee the Actual Cost of any construction requested under this provision.

The City may request that interconnection to the I-Net be permitted at any location, including the Grantee's headend and hubsite, and major Grantee fiber runs passing near City network facilities. Permission by the Grantee shall not be unreasonably denied.

5.(h)(4) Grantee will purchase and convey title to the City \$280,000 worth of I-net transmission equipment, as requested and specified by the City. The purpose of this equipment will be to activate the transmission capability of the I-Net. Grantee will purchase the equipment at the same price it pays for such equipment when purchased for its own use to give the City the benefit of Grantee's purchase discounts from its vendors.

5.(h)(5) Grantee will provide the engineering drawings and equipment specifications to implement and activate the I-Net sites in a cost-effective manner and at the functionality requested by the City.

5.(h)(6) **Ownership.** Grantee shall own the facilities constituting the I-Net that exist between the building entry point and the cable headend. Nevertheless, Grantee shall make the outside I-Net facilities continuously available to the City and other users authorized by the City as long as Grantee is lawfully operating in the City.

5.(h)(7) **Site List.** A list of the sites to which the City expects to direct Grantee to construct the I-Net is attached hereto as Appendix 1. The City may delete sites from the list and substitute new locations, and may add locations up to a total of 55 sites, and may direct the Grantee to construct the I-Net to such locations at no cost to the City.

5.(h)(8) **Applications.** The I-Net will be equivalent in functionality to a fiber optic network designed in accordance with City specifications and will be able to support (among other applications) two-way video, data and voice communications between designated buildings, distance learning applications, and transmission of PEG programming from origination points on the I-Net to the subscriber network.

5.(h)(9) **Expansion Capacity.** If the City wishes to use transmission capacity on the Grantee's Cable System beyond the City's and other qualified User's rights to free use under this Ordinance, the charges for such use shall be freely negotiated on terms and conditions equal to or more favorable to the City than those offered to any major commercial User by the Grantee.

6.(a)(1) Prior to the completion of the Cable System rebuild and at such time as the City requests in accordance with this paragraph, the Grantee shall provide four (4) PEG channels.

Unless and until the City requests the fourth channel, Public Access and Government Access will share a single 6 MHz analog video channel until the Cable System rebuild is completed. However, the City may request a fourth channel if the single channel shared by public access and government access is in use eighty percent (80%) of the time between the hours of 2 p.m. and 11 p.m. five days per week for four (4) consecutive weeks, and at least twenty (20) hours of programming each week is original programming not previously shown on the Cable System. Upon request of the City, Grantee will make the fourth channel immediately available for use as the Government Access Channel.

6.(a)(2) Upon completion of the Cable System rebuild, the Grantee shall provide one channel each for local origination, public access, government access, and educational access on the Cable System throughout the remaining term of the Franchise. These channels shall be 6 MHz each, and must be capable of transmitting a standard analog video signal. If Grantee converts the basic service tier to digital transmission format, then Grantee will continue to provide at least 24Mbs of transmission capacity on the basic service tier for Public, Educational, and Government programming.

6.(a)(3) When the Cable System begins to carry digitally transmitted video channels, the Grantee shall make available additional digital PEG Channels equivalent to five (5) percent of the total number of channels activated on the Subscriber Network in the event all four analog PEG channels are utilized as set out in 6(a)1. Any digital PEG Channel provided shall have the same bandwidth and same transmission quality as the standard commercial digital channels on the Cable System.
